Device Security	What should you equip all your devices with?	
Inside Section 14	Who asks you for your codename?	
Inside Section 14	Who are the cyber criminals who launched a ransomware attack?	

## Cyber Security Awareness Month: ‘Secure the World’ – OutThink quiz

For cybersecurity awareness month, OutThink have developed a fun quiz for learners which ties in with the four key ‘Secure the World’ subthemes:

1. Use strong passwords and a password manager.
2. Turn on multifactor authentication.
3. Recognize and report phishing.
4. Update software.

Before launching the quiz, make sure to circulate the questions to your users. The list of questions and correct answers is given at the end of this document. A separate PDF with the questions is provided to be circulated to those in your team taking the quiz.

### Steps to create quiz in OutThink:

1. Start by choosing to create an Instant campaign:  
<https://help.outthink.io/choosing-the-campaign-type/>
2. Select the users to enroll into your campaign – this could be all users or a subset:  
<https://help.outthink.io/enrolling-users-into-the-campaign/>
3. Select the modules to include in the campaign. This should be a complete set or subset of the following modules on which the quiz questions are based:
  - a. Password best practice.
  - b. MFA & biometrics.
  - c. Phishing and email security.
  - d. Device security.
  - e. Inside Section 14 (please notify your CSM if you wish to include this conversational AI module so they can enable it for your deployment).  
<https://help.outthink.io/picking-the-assets-to-be-used-in-the-campaign/>
4. Configure the settings for the campaign: <https://help.outthink.io/campaign-settings/>  
We recommend using the ‘Spin to win’ functionality when creating the campaign:  
<https://help.outthink.io/add-a-spin-to-win-incentive/>  
This allows you to set potential prizes for the winners, and can additionally be configured to inform learners how to submit their answers:

SPIN TO WIN CONFIGURATION  SPIN TO WIN ENABLED

Motivate your learners to complete training: add one or more prizes they can win.

Prize 1	Description	Number of Items
	Description	0

[Add prize](#)

**Prize claim message**

This message will be sent to your prize winner(s). Let them know who to contact about claiming their prize.

Submit your quiz answers and claim your prize by contacting [email address]

Suggested prizes, both small and large, for the quiz include:

1. Data USB blockers.
2. Laptop camera cover slide.
3. Pizza lunch for best performing department.
4. Company swag.
5. VPN subscription.
6. Sponsorship for CISSP qualification.

Additionally, if preferred, prizes could just be awarded for completing the campaign using 'Spin to Win', without including the quiz component.

Quiz questions and answers:

Module	Question	Answer
Password best practice	Who is struggling to remember her complex password?	Katie
