

Web Developer (JavaScript, TypeScript, React, Redux, CSS)

Remote (UK or European Union)

Keywords: JavaScript, TypeScript, React, Redux, CSS

We are seeking a Web Developer to join our exciting start-up, working within our high performing agile engineering squad, and playing a key role in building and delivering OutThink's brand new SaaS Learning Platform.

The platform provides a cutting-edge training experience to hundreds of thousands of users around the world via both desktop and mobile devices, and at the same time monitors training responses and continually gathers feedback. This subjective data is collated and processed by our cloud engines in Azure, culminating in the provision of sophisticated Human Risk Management models, experienced through the delivery of highly visual and interactive on-line reports.

The Role

You will be working within our Engineering Team and interacting daily with our Product Manager. You will help to design and build highly sophisticated and interactive SaaS web applications. This includes our web-based multi-lingual learning platform, delivered to hundreds of thousands of users across the world.

What You'll Need

- Good analytical and problem-solving skills.
- A positive and proactive attitude with strong initiative, team-working skills, and the ability to learn quickly.
- Good communication skills, with the ability to communicate in English in all forms.
- An understanding of the principles behind great software design, allowing you to write code that's clean, fast, and scalable.
- Well-practiced with Agile Development Methodology, working in short sprint cycles.
- Proven expertise with both React and Redux.
- JavaScript, in particular familiarity with the latest ECMA versions.
- TypeScript. Intermediate to advanced knowledge is essential.
- CSS. It is essential that you are comfortable working with CSS and can effectively translate UI/UX requirements into real world solutions.

Desirable

- Redux-Saga.
- Jest Testing Framework.
- WebPack and/or similar JavaScript build systems.

In Return You'll Receive

- An opportunity to help build our new, highly sophisticated SaaS web applications.
- An opportunity to work with some of the most modern and leading-edge cloud-based technologies available, working closely with top experts in the industry.
- Great start-up culture in a fun, friendly, and hardworking team.
- Flexible remote working.
- Competitive salary.
- Share options package - a rare opportunity to get in early and have a stake in what could potentially be a unicorn start-up, with a huge financial payback.
- 34 days paid holiday (including public holidays).
- Plus, an extra day off on your birthday!
